- Contains no harsh alkalis, abrasives, or solvents
- Enriched with skin conditioners and emollients to moisturize and protect skin from irritation
- pH balanced formula to provide for optimum skin compatibility
- All surfactants used in the manufacture of this product are readily biodegradable

Description

ANTIBACTERIAL HAND SOAP is a pleasantly scented antibacterial hand soap for use in public restrooms, hospitals, nursing homes, schools or anywhere frequent hand washing is needed and a antimicrobial soap is desired. The CDC recommends hand washing as the single most important prevention step for reducing disease transmission.

This product effectively removes soil, provides, a thick luxurious lather and its high-quality emollients make it gentle on even the most sensitive skin. Contains no harsh alkalis, abrasives, or solvents.
