

Citrus

Heavy Duty Alkaline Degreaser & All-Purpose Cleaner

Product Features

- Heavy duty Alkaline formula for the most demanding cleaning tasks
- Excellent detergency power
- Penetrates and removes tough dirt, greases, and grime
- High foaming for extra cling
- Phosphate-free & environmentally responsible
- Recognized by the Canadian Food Inspection Agency (CFIA) as suitable for use in registered food establishments

Description

CITRUS is a non-butyl based, heavy-duty, alkaline cleaner and degreaser with excellent soil emulsification which is particularly effective against fats, oils, and organic soils. Excellent for cleaning stainless steel, floors, walls, hoods, ovens, grills, machinery, glass and many other hard surfaces. This product is high foaming and may be used for either manual cleaning, pressure washing, or through foam generating equipment for foam cleaning. It is a pleasantly scented, economical, and an easy-to-use liquid that will quickly clean greasy soils, grime and everyday dirt.

Applications include

- Heavy duty cleaning/degreasing tasks
- Cleaning floors, countertops, & other hard surfaces
- Kitchen hood degreasing/cleaning
- Oven & Grill cleaning
- General purpose pressure washing
- Cleaning and Maintenance Services
- All-purpose cleaning
- Food plant and equipment cleaning

Directions For Use

CITRUS may be used at different dilutions depending on the severity of the job. For most cleaning and degreasing applications a solution of 1 part product to 10-40 parts warm/hot water can be applied by mopping or spraying directly onto surface. Stronger solutions can be used to increase the cleaning power.

FOR FOOD PROCESSING EQUIPMENT:

GENERAL PURPOSE CLEANING: Dilute 4 to 10 ounces per gallon of water. Apply by spraying or wiping. Scrub, if necessary. Rinse thoroughly with potable water. **FOAM CLEANING:** Dilute 6 to 10 ounces per gallon of water for foam cleaning, depending on degree of soil. Foam solution onto soiled surfaces; scrub if necessary. Rinse thoroughly with potable water. **PRESSURE WASHING:** Dilute 6 to 10 ounces per gallon of water for pressure washing, depending on degree of soil. Apply solution to soiled surfaces, scrub, if necessary. Rinse with potable water. High concentrations of CITRUS can attack painted surfaces. On painted surfaces, test an inconspicuous area before use, or use very dilute solution and rinse well.

Note: When used on alkali sensitive metals such as aluminum and galvanized, monitor concentrations and contact time to avoid potential damage. Also, thorough rinsing is always required. Surfaces subjected to direct food contact must be rinsed thoroughly with potable water after cleaning with this product.

Product Properties

Appearance	Yellow liquid
Specific Gravity, at 20°C	1.00-1.10 kg/L
Freeze Point	0°C
pH, 1% solution, at 20°C	11.5-13.5
Shelf Life	1 year minimum
