

F.U.G.G.

Heavy Duty Degreaser For Unsightly Grease and Grime

Product Features

- Amazing degreasing performance
- Heavy duty, water dilutable alkaline degreaser
- Superior surfactants quickly dissolve and suspend even the greasiest soils
- Allows for exceptional penetration and removal of tough dirt, greases, and grime
- Moderate foaming for easier rinsing
- All components of this product are 100% biodegradable

Description

F.U.G.G. is a heavy-duty cleaner and degreaser that features an advanced, synergistic formula. Superior surfactants quickly dissolve and suspend even the greasiest soils. It provides fast, effective clean-up with less streaking and smearing than conventional degreasers and it won't discolor stainless steel surfaces. F.U.G.G. represents breakthrough technology that provides a powerful solution to effectively and safely deal with any combination of soil, mud or sand mixed with heavy oils. While other products are designed to effectively clean either soils or heavy oils, but not necessarily both at the same time, F.U.G.G.'s powerful surfactants and wetting agents aggressively penetrate through almost any kind of soil, leaving it soft, pliable and easy to rinse. At the same time powerful yet safe synthetic and organic solvents break up and emulsify heavy oils such as bitumen and tar. In addition, F.U.G.G. is designed to inhibit corrosion, eliminate static electric charge, and prevent the redeposition of soils. Whether faced with invert mud, dirt mixed with heavy oil, tar sands or any other scenario with such mixtures, F.U.G.G. will get the job done. Furthermore, this product delivers incredible performance without compromising environmental integrity.

Applications include

- Industrial cleaning
- Kitchen exhaust degreasing
- Soak tank cleaning
- General purpose pressure washing
- Cleaning and Maintenance Services
- Off-road equipment
- Mining equipment

Directions For Use

Apply solution using a low-pressure sprayer, sponge, soft brush or cloth. Let stand for approximately 2-5 minutes. Extended dwell time may be required for more stubborn soils although product should not be allowed to dry on the surface. Some agitation may be required. Wipe with a damp cloth or rinse thoroughly with water.

Dilution rates:

Light cleaning: 1:100 with water

Medium cleaning: 1:50 with water

Heavy duty cleaning: 1:5 with water

Extreme soils/thick grease: use 1:1 with water or undiluted

**The use of warm/hot water to dilute F.U.G.G. is preferred as the increased temperature will further enhance the product's performance

RINSE THOROUGHLY FROM ALL SURFACES WITH WARM WATER

Product Properties

Appearance	Clear light-yellow liquid
Specific Gravity, at 20°C	0.98-1.06 kg/L
Flash Point	None
Freeze Point	0°C
pH, 1% solution, at 20°C	10-13
Shelf Life	1 year minimum

Available Packaging

4x4L Cases	205 L Drums
20 L Pails	1000 L Totes
