

Halo

Premium total body vehicle protectant & drying aid

Product Features

- Utilizes advanced polymer technology and is seal oil-free
- Provides a long-lasting protective barrier to vehicle surface to repel dirt, grease, films, and dust.
- Adds luster and reduces streaking
- Beads and repels water - better visibility, safer driving in poor weather
- Protects all surfaces - helps prevent rust, maintains vehicle's value
- Provides excellent water beading and reduces drying time

Description

The search for an amazing surface protectant stops here! Halo employs a technologically advanced, seal oil-free, polymer system that is designed to give your vehicle increased shine, better surface protection, and water repellency for safer driving in poor weather. Halo provides outstanding performance and long-lasting protection. Also, vehicles treated with Halo tend to have easier-next-time-cleaning since films and soils are unable to adhere as strongly to the treated surface.

Unlike most protectants that tend to add shine and protection to painted surfaces only, Halo delivers shine, protection and water repellency to the vehicle's paint, glass and chrome. This product is ideal for use as a premium wash package upgrade for conveyors, automatics and self-serve washes.

Product Properties

Appearance	Clear slightly amber liquid
Odour	Cherry
Specific Gravity, at 20°C	0.92-1.02 kg/L
Freeze Point	0°C
pH, 1% solution, at 20°C	6-8
Shelf Life	2 years

Applications

Specifically designed for use in tunnel car washes but can also be used in any automated car wash environment. This product is added to the final rinse of the wash cycle. It can be diluted manually or through a metering system. Usually 0.5-1.0 oz of product per car is sufficient for good water removal, surface protection, and shine.

As a total body protectant, typical use dilutions will range from 200-400:1. Halo can also be used as a Clear Coat/Sealer Coat enhancer (wax replacement) where a typical used dilution is 800-1600:1.

Available Packaging

20 L Pails
55 L Drums
