

PRODUCT SPECIFICATION

Liquid Chisel

Ultimate Performance Concrete Remover/Truck Wash

LIQUID CHISEL is an extremely high performance, highly active, acidic detergent that effectively attacks the cement matrix to destroy its binding qualities to mixers and truck surfaces. It contains acid inhibitors to protect painted metal surfaces when the solution is applied to concrete deposits. The product is also formulated to be safer to handle and use. It utilizes a cutting edge process that renders the synthetic acids safer for the user. The result is a product with very minimal fumes and one that will not burn intact skin.

LIQUID CHISEL uses cutting edge chemistry that sets it apart from competitive products and puts it in a league by itself. Even the toughest, cured on concrete deposits will be quickly dissolved with little to no user effort.

PERFORMANCE

Experience the highest performing concrete removing truckwash on the market today. Period.

COST EFFECTIVE

Liquid Chisel is extremely competitively priced. Users should find it to not only outperform competitive products but offer a cost savings at the same time.

SAFER

Much safer than traditional muriatic acid-based cleaners. Liquid Chisel produces minimal fumes and it will not burn intact skin

	Dissolving Power	Performance (speed/degree of removal)	Value	Surface Brightening Ability	Safety	Ease of Use, Application	Corrosion Inhibition

PRODUCT APPLICATIONS

- Cleaning concrete/cement deposits from redi-mix trucks
- Removal of concrete deposits from concrete plants and equipment
- Cleaning tools
- Removing scale build up
- Commercial Truck Washes

PROPERTIES

Appearance	Clear Amber Fluid
Specific Gravity, at 20°C	1.13-1.18 kg/L
Flash Point	None
Freeze Protection	<-40°C/-40.0°F
Shelf Life	2 years minimum
