

Pro Laundry Neutralizer

Premium Liquid Laundry Sour

Product Features

- Highly concentrated
- For commercial applications
- Prevents fabric discoloring
- Adjusts fabric pH level
- Neutralizes residual alkalinity
- Effective against mineral and iron build-up
- Free-rinsing

Description

PRO LAUNDRY NEUTRALIZER is a liquid alkalinity neutralizer that eliminates fabric discoloration arising from iron presence in the water supply or alkali presence in the rinse water. This product can be used for all types of fabric, white and coloured but is particularly suitable for application on hospital linen and mops.

PRO LAUNDRY NEUTRALIZER is also a laundry rust removing sour and it is specially formulated for use in commercial and on premise laundries. This product should be applied in the last rinse to neutralize residual alkalinity and removal of rust discoloration.

Product Properties

Appearance	Clear green/turquoise liquid
Odour	odorless
Specific Gravity, at 20°C	1.09-1.19 kg/L
Flash Point	None
Freeze Point	<0°C
pH, 1% solution, at 20°C	2-5
Shelf Life	1 year minimum

Applications include

- Commercial laundry
- Industrial laundry

Directions for Use

Use product by adding 28-56 mL (1-2 oz) per 100 lbs of laundry to maintain a pH of 5.5-6.5 on finished linen. It should be applied in the last rinse of a washer extractor or in the last section of a continuous batch washer. Product is compatible with fabric softeners and starches.

Where the water supplies contain 0.1ppm iron, use PRO LAUNDRY NEUTRALIZER at 0.5-1 mL/lb at low level for 4-5 minutes.

When iron (rust) removal is required, use 4-6mL/lb PRO LAUNDRY NEUTRALIZER at low level for 10-15 minutes at 70°C. Follow this operation at least with two flashes and continue as desired for classification type. Do not use in machines with soft metal or porcelain parts.

Contact your laundry specialist for specific use directions to fit your needs.

Available Packaging

- 2x10L Cases
- 20 L Pails
- 115L Drums
- 205 L Drums
