

Pro Laundry NeutraSoft

Premium Combination Laundry Neutralizer and Fabric Softener

Product Features

- Can be used on most fabrics including cotton, linens, and synthetic blends.
- Neutralizes residual alkalinity
- Reduces static cling and inhibits static build up
- Non-yellowing
- Leaves fabrics soft and fluffy
- Optical brightener renews brightness of white and colored fabrics

Description

PRO LAUNDRY NEUTRASOFT incorporates three functional laundry steps in one easy to use combination product. This unique formulation includes high quality souring agents, excellent cationic fabric softeners and optical brighteners which together leaves cloth fresh, clean, soft and bright. PRO LAUNDRY NEUTRASOFT controls static electricity, reducing wrinkles, and imparting a smooth, soft finish to fabrics. The sour portion of this product controls the pH levels of the finished linen. The multi-functionality of the product offers substantial cost savings over the purchase of sour and softener separately.
