Ultra Pre-Soak Universal Cutlery and Dishware Pre-Soak

Product Features

- Effectively loosens tough soil deposits from cutlery and dishware
- Reduces the need for multiple rewashes to save overall cost
- Highly concentrated, cost effective formula
- Controls discoloration of stainless-steel cutlery caused by protein build-up
- Contains sequestering agents and soil penetration aids
- Will not impact the performance of dishwasher chemicals

Description

ULTRA PRE-SOAK is a concentrated, chlorinated liquid for utensils and dishware containing alkaline builders, detergent builders, and buffering compounds. This product will effectively loosen and remove caked-on food soils from china and stainless steel for easy removal in the mechanical dishwasher machine cycle. ULTRA PRE-SOAK will also effortlessly remove stubborn tannin stains left by coffee and tea.

Product Properties
