

# Liquid Chisel / Ultra Duty Truckwash 1501

Ultimate performance concrete remover/truck wash

## Product Features

- Experience the highest performing concrete removing truck wash on the market today. Period.
- Liquid Chisel is extremely competitively priced. Users should find it to not only outperform competitive products but offer a cost savings at the same time.
- Much safer than traditional muriatic acid-based cleaners.
- Liquid Chisel produces minimal fumes and it will not burn intact skin
- Eco-Friendly alternative to traditional acids that has been developed to be biodegradable.

## Description

LIQUID CHISEL is an extremely high performance, highly active, acidic detergent that effectively attacks the cement matrix to destroy its binding qualities to mixers, truck surfaces, tools, and equipment.

It contains acid inhibitors to help protect painted metal surfaces when the solution is applied to concrete deposits.

This product is formulated to be safer to handle and use than traditional strong acids such as muriatic acid based cleaners while maintaining an effective result. LIQUID CHISEL utilizes a cutting-edge process that renders the synthetic acids safer for the user, the result is a product with very minimal fumes and one that will not burn intact skin.

LIQUID CHISEL uses cutting edge chemistry that sets it apart from competitive products and puts it in a league by itself. Even the toughest, cured on concrete deposits will be quickly dissolved with little to no user effort.

This product is also developed to be an eco-friendly option that has been developed to be biodegradable as apposed to many harsh acid-based cleaners on the market.

## Available Packaging

20L Pails  
205L Drums  
1000 L Totes

## Applications Include

- Cleaning concrete/cement deposits from redi-mix trucks
- Removal of concrete deposits from concrete plants and equipment
- Cleaning tools
- Removing scale build up
- Commercial Truck Washes

## Directions for Use

Directions for Use: Apply solution using a foamer, sponge, soft brush or cloth. Let stand for 1-10 minutes (extended dwell time may be required depending on the severity of the build up). Some agitation may be required.

For maximum performance, LIQUID CHISEL can be used in its concentrated form, however, the product will perform at a high level even at elevated dilution levels. Dilution up to approximately 1:10 with water can be effective to remove stuck on concrete deposits.

## Product Properties

Appearance	clear amber fluid
Flash Point	none
Specific Gravity, at 20°C	1.18-1.32 kg/L
Freeze Point	<-40°C (-40.0°F)
Shelf Life	2 years minimum
