PreSoak & Bug

Concentrated Bug Remover

Product Features

- High foaming formula allows for extended contact time
- Highly effective at penetrating and loosening bug residues, bird droppings and other surface soils
- Aluminum & chrome compatible solution
- Can be used in low-pressure sprayer systems to presoak before pressure washing/rinsing

Description

PRESOAK & BUG is a high foaming, aluminum compatible degreaser and bug remover designed to remove the toughest grime off vehicles. This product's unique formulation allows it to be a water dilutable degreaser with a built-in blend of surfactants that can quickly penetrate, release, and emulsify oils, greases and bug proteins normally missed by average vehicle washes.

PRESOAK & BUG contains no phosphates, is solvent-free, and has no flash point. This product is especially designed to penetrate and loosen stubborn bug residues, bird droppings and other surface soils from your vehicle's windshield, lights, chrome and exterior paint surfaces.

Applications include

- Pressurized washing of cars, trucks and commercial vehicles

Directions For Use

For most applications:

(1) Mix one part product with 10 parts water (1:10). Do not allow product to dry on surface. During periods of hot weather, a more dilute (1:30) solution may be preferable in order to avoid product drying too fast.
(2) Apply product with low pressure sprayer or foam directly on areas to be cleaned.
(3) Allow product to dwell on surface for 3-5 minutes.
(4) Agitate solution with brush if available as needed.
(5) Pressure rinse thoroughly.

Product Properties

Appearance	Clear orange/amber liquid
Specific Gravity, at 20°C	1.00-1.10 kg/L @ 20°C
Flash Point	None
Freeze Point	<0°C
pH, 1% solution, at 20°C	>11.5
Shelf Life	1 year

Available Packaging

4x4L Cases
20L Pails
205 L Drums
1000 L Totes
