

Eco Wash

Warewash Detergent, for use in high hardness water

Product Features

- Delivers optimum cleaning power and hard water tolerance.
- One-pass cleaning, even under heavy soil loads
- Highly cost effective formula. Allows for excellent cost in use.
- Soil suspension agents prevent food and stains from redepositing onto ware
- Proprietary additives condition the wash bath and contribute to a reduction in spotting/streaking/filming on wares
- Phosphate-free formula

Description

ECO WASH is a heavy-duty, non-chlorinated dish detergent designed to deliver outstanding results on china, plastic, glassware, tableware, pots and pans. It's concentrated formula gives optimum cost in use across a wide range of water conditions and soil loads. ECO WASH contains environmentally friendly water softeners which allow for free-rinsing and reduce the formation and accumulation of scum and scale in dishwashing machines in hard water conditions. It also contains excellent soil suspending and sequestering agents, exhibits excellent detergency power, and is non-foaming so it will not generate foam that would interfere with the operation of the dishwasher.

Directions for Use

Use at 0.15% to 0.80% at 60°-65°C.

Not recommended for use on soft metals.

Product Properties

Appearance	Red Liquid
Specific Gravity, at 20°C	1.1-1.25 kg/L
Flash Point	None
Freeze/Thaw Stability	Protect
pH, (concentrate)	>13
pH, (use dilution)	11-12.5
Scent	Characteristic
Solubility	Complete
Shelf Life	1 year

Available Packaging

4 x 4 L Case
2 x 10 L Case
20 L Pail

602 – 13th St SE, Medicine Hat, AB
